Swissness

'Swissness' is a word that defines LAUFEN's innovative approach to creating beautiful bathroom ceramics. It stands for many different things, but always embraces the concepts of outstanding quality, superb design, precise engineering and a passion for environmental sustainability.

Quality

LAUFEN continually pushes the limits of technical possibility to create ground-breaking new ideas expressed through ceramics. Sophisticated production processes are balanced with a human touch. Each piece is hand finished to ensure the highest standards of finish are achieved.

Design

At LAUFEN, design is at the heart of every product. LAUFEN treats ceramics as an art form, collaborating with many of the world's leading international architects and designers to make exciting new concepts a reality. Each design is brought to life using only natural raw materials such as china clay and quartz.

Designed like no other

Partnering with outstanding architects and designers, LAUFEN creates bathroom products that express emotion, purity and harmony.

The LAUFEN Forum

Located in the picturesque Swiss canton of Basel Land, the LAUFEN Forum is a monument to the art of making beautiful bathroom ceramics. This awe inspiring piece of architecture houses a collection of LAUFEN's most iconic designs while showcasing the company's history and ongoing commitment to sustainability. With its graceful arcs and sweeping curves, the building itself stylistically reflects the beauty of the products housed within it.

One ILBAGNO**ALESSI**

Stefano Giovannoni | Italy

The expressive creations of award winning designer and architect, Stefano Giovannoni, have cast a spell over the design world for many years. His works even form part of a permanent archive at the Museum of Modern Art in New York. Stefano has collaborated with many famous names and none bigger than Alessi – the king of designer homewares. For Alberto Alessi, Giovannoni is one of the few designers capable of combining the extraordinary with the popular. This is indeed the reason why he commissioned him to develop ALESSI's first complete bathroom collection in conjunction with Laufen - ILBAGNOALESSI One. Characterised by organic forms that each speak the same sensuous design language, ILBAGNOALESSI One is a winner of Europe's prestigious Design Plus Award. The gentle, rounded shapes of ILBAGNOALESSI One reflect the work of nature itself – inspired by the idea of a stone that has been smoothed by water over time.

PALOMBA COLLECTION

Ludovica+Roberto Palomba | Italy

Ludovica+Roberto Palomba are famed for their unconventional bathroom, kitchen and living area designs, having shot to stardom in the Italian design scene through their work for brands such as Moroso, Poltrona Frau, Cappellini and Boffi. Their unusual designs are born from a deep understanding of architecture, lifestyle and industrial objects. The LAUFEN PALOMBA COLLECTION is the couple's first bathroom project for LAUFEN. They describe this concept as the 'fingerprint of nature'. The boundaries between masculine and feminine forms become blurred. The character of the design is not rigidly fixed, but hovers between geometrical and organic forms. Yet all elements of the collection harmonise with one another and bear the visual signature of the Italian designer couple.
