Showers and Tapware

Innovators in Water

# LIFE-ENHANCING SHOWER EXPERIENCES

At Methven, we lead by design.

We are renowned globally for breakthrough design and product development, distinctive aesthetics and environmental-mindedness.

A pioneer in bathroom and kitchen plumbing for over 125 years, we understand the sensory and transformational properties – physical and spiritual – of water and its power to calm, refresh and invigorate.

And we believe that a beautiful bathroom starts with the shower.

A great-feeling shower has all the hallmarks of pressure, coverage, warmth and cleansing power, and when combined with Methven's stylish design and innovative technology, the bathroom is transformed from a functional space into a space that enhances your life.

Developed by our New Zealand-based design team, our world class showers feature considered design with water-saving technology and energy efficiency. Matching Methven tapware completes the overall bathroom look.

Methven transforms the bathroom into your own private sanctuary.

Our comprehensive Lifetime Shower Replacement Guarantee and 15 Year Tapware Parts and Labour Guarantee provide total peace of mind.

# INNOVATIVE TECHNOLOGY

Leading-edge technologies and outstanding product design allow Methven to deliver unrivalled shower experiences that surprise and delight.

## SATINJET® TECHNOLOGY

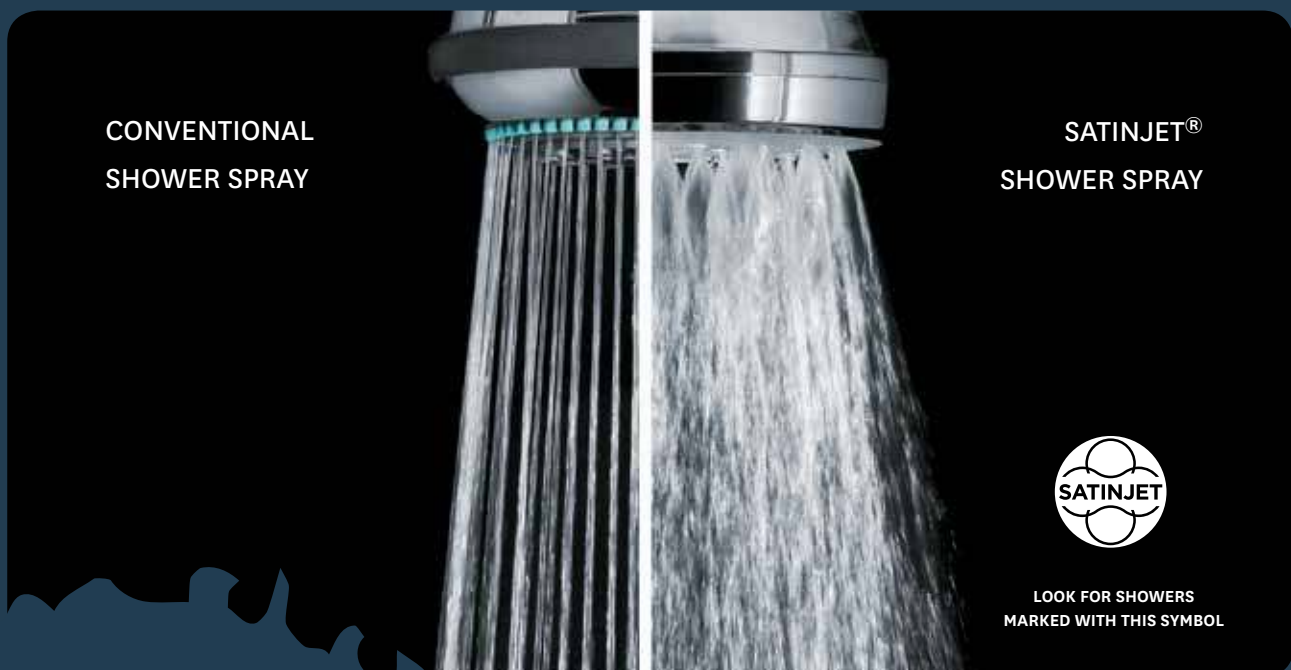

Experience the difference

The award-winning range of Methven Satinjet® showers has been designed for optimum performance, transforming an everyday ritual into a luxurious life-enhancing shower experience.

Where standard showers use single jets of water that can produce a narrow, needle-like spray, Methven Satinjet® showers use twin jets of water that collide and turn into thousands of tiny droplets that are soft enough for the face, yet invigorating enough for the entire body.

This jet interaction creates optimum water droplet size and pressure at only 9 litres per minute, delivering all-over spray coverage with a sensation of warmth and luxury.

Delivering more shower for less water, this innovative technology performs at much lower flow rates, reducing water and energy consumption, without compromising the shower experience.

## EVENFLO™ TECHNOLOGY

Protect the shower experience

Evenflo™ creates a balanced, controlled and consistent water flow delivery, preventing fluctuations in temperature and pressure at the outlet in which it is installed. As a result, any number of taps can be turned on or off making no difference to the shower temperature or pressure. The range of handle movement allowed by Evenflo™ technology also ensures a more precise temperature transition from cold to hot.

LOOK FOR MIXERS  
MARKED WITH THIS SYMBOL

***Pictured:*** Tahi Shower System and Dual Flow Thermostatic Mixer.

# TAHI

The distinctive look of Tahi will complement the finest of architectural design settings. Contemporary geometric styling and sophisticated design features ensure Tahi delivers the ultimate shower experience.

1. **Overhead Shower:** Satinjet® twin-jet technology for all-over coverage.
2. **Shower Handset:** Height-adjustable, two-function handset (head size – 182 x 80 mm), offering two types of spray – Satinjet® body shower and massage.
3. **Spray Control:** Change the spray pattern by sliding the switch.
4. **Adjustable Shelf (inset):** Build your own modular storage system. Valuable extra storage space in your shower plus convenient hook for hanging shower accessories.
5. **Footrest (inset):** Ideal for shaving legs, the footrest features a non-slip rubber cover for comfortable grip.
6. **Hose:** Contemporary, SatinLux hose for easy cleaning. Fitted with swivel ends to minimise twisting.
7. **Thermostatic Mixer (inset):** Unique low-profile design with superior functionality. Dual flow featuring a 38 degree safety lock and soft touch lever functionality (also available single flow for other shower selections).

#### TECHNICAL FEATURES - TAPWARE

	EVENFLO™ TECHNOLOGY	Evenflo™ Technology prevents the fluctuation of temperature and pressures at the point of installation caused by other outlets being used at the same time.
	ADJUSTABLE STREAM DIRECTION AERATOR	This aerator can be adjusted 7 degrees in any direction from vertical with a push of a finger, therefore, easily control and customise the stream direction to minimise splashing.
	TEMPERATURE AND FLOW ADJUSTABLE CARTRIDGE	Allows the user to set the maximum temperature and flow desired. An excellent safety feature and regulates water.
	1/4 TURN CERAMIC DISC TECHNOLOGY	A small turn of the handle allows flow to be adjusted from zero to full flow and vice versa.
	WELS RATINGS	Methven rates all of its showers and tapware according to the Water Efficiency Labelling Scheme (WELS). Methven tapware is 4 and 6 star WELS rated. Please note that shower mixers, spouts and any other accessories do not require a WELS rating.
